### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Japanese document 11-90880 cited by applicant is the closest art of record.

The prior art however fails to teach or suggest the claimed combination set forth in claim 1 comprising means for dividing the paths into groups and storing the result of the division as group information, means for controlling group-unit stoppage, when an alarm is detected in any of the paths during operation of the multi-path numerical control device, stopping the operation of all the paths belonging to the group where the alarm was detected in accordance with the group information and means for selecting whether to validate a function of the means for controlling group-unit stoppage or to invalidate and stop the function.

The prior art however fails to teach or suggest the claimed combination set forth in claim 3 (renumbered 2) comprising means for dividing the paths into groups and storing the result of the division as group information, means for controlling group-unit stoppage, when any of the paths undergoes single block stoppage during operation of the multi-path numerical control device, stopping the operation of all the paths belonging to the group where the single block stoppage occurred in accordance with the group information and means for selecting whether to validate a function of the means for controlling group-unit stoppage or to invalidate and stop the function.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
